

When Dairy

EACH DELEGATE received a fat packet of materials, covering all phases of the convention and the community. Much of that preparation was done by Mrs. Margaret Good, in the U of A Mimeo Bureau, shown above with, left, Dr. Wm. H. Brown and, right, Dr. Stull.

DELEGATES CAME from many lands. Here, in a corridor conversation, are Pran Nath Varman, left, from the Punjab, India, and at right Peter S. Ku of Formosa.

STAFF RECRUITED from several departments helped man the booths, registration for tours, visits to scenic areas, and special children's movies and tours. Al Lane, extension Livestock Specialist, eagerly sought candidates for the ladies' tours of the Desert Museum and downtown Tucson.

HARVEY P. HOOD, right, of Boston, receives the Distinguished Service Award for 1964 from Dr. S. T. Coulter, left, outgoing president of the ADSA. Man in center is Burdet Heineman of Producers Creamery, Springfield, Mo.

Believed to be the largest ever held on The University of Arizona campus this summer. Registered attendance total attendance is estimated at 1,000.

Despite the handicap of the Dairy Science Department's location, with an organization for smooth procedure of the meetings. Additional events kept delegates happily occupied.

General chairman of the convention, Dr. Stull, said. The program itself included research, extension, dairy education and graduate chapter activities.

Attendance included industry personnel from near and far, and from several foreign countries.

Dr. Stull, in directing the program, received voluntary assistance from many of the faculty on this campus, as well as from representatives of the industry. The "play-back" sessions were most complimentary. The delegates were most complimentary received here and the excellent result: Many delegates in the intention of making Tucson a permanent home.

BEFORE THE "message" blackboard in conversation involves, left to right, Dr. Wm. H. Brown, U of A, and Dr. Gerald H. Stott, host to the big professional meeting.

men Gather

national convention at the University of Arizona campus was the Association's gathering this year. Attendance approached 1300, and the program ran from 10:00 a.m. to 10:00 p.m. at 1400.

With a small staff, the U of A did an excellent job of sponsoring a wide range of activities which made the four-day program of meetings and exhibits enjoyable for the women and youngsters.

The main event was Dr. J. W. Stull's address on sub-programs dealing with research, production and industry in every state in the nation.

Dr. Stull's address was a most interesting one. He discussed the situation in every state in the nation and the need for research, production and industry in every state in the nation.

Dr. Stull's program, had excellent results throughout this college and university campus industry representatives. Comments from delegates were very complimentary as to the courtesies and facilities provided. In addition, scientists left with serious thoughts on their retirement home.

...auditorium lobby an informal corridor... Senger, North Carolina State; Dr. Wm. ... of the U of A Dairy Science Department,

AWARD OF HONOR from the American Dairy Science Association goes to Prof. Malcolm Trout, right, of Michigan State University. Dr. S. T. Coulter, ADSA retiring president and dairy scientist at the University of Minnesota, makes the presentation. In center, above, is Ralph E. Hodgson, Beltsville, Md., who gave the citation.

CONSTANTLY BUSY, keeping the wheels running smoothly, were Dr. J. W. Stull, general chairman, left, and H. F. Judkins, veteran ADSA secretary-treasurer.

PRESIDENT COULTER, left, congratulates the new vice president of the ADSA, Dr. F. E. Nelson of the U of A Dairy Science Department.

WITH THE BEST graduate student paper award, D. P. Wesen, right, Washington State University, is presented a plaque and check by J. R. Nichols of Pennsylvania State University.
